## SwitchThink Solutions Signs 100<sup>th</sup> client as 9 Credit Unions Enter Cloud Services Agreements in Fourth Quarter

Information technology CUSO helps credit unions benefit from transformational powers of KeyStone platform and cloud technology

**PHOENIX (February 23, 2023)** – SwitchThink Solutions has signed agreements with 9 credit unions in the fourth quarter of 2022, including the company’s 100th client since its founding just over 5 years ago. SwitchThink will provide its secure and reliable suite of Enterprise Cloud Solutions to these nine credit unions, so they can maximize the results they achieve from their enterprise operations. Clients signed range from \$134 million to over \$2 billion in assets and collectively service more than 275,500 members. Services selected span Infrastructure Services to a fully Managed Services solution for both KeyStone core processing and other mission critical systems.

“Delivering service excellence and the exceptional value our members expect are our top goals,” said Tim Green, chief executive officer (CEO), F&A Federal Credit Union. “Working with SwitchThink advances our digital transformation journey with modern and intuitive technology that will keep members satisfied for the long-term.”

“We’re dedicated to a long, rich history of serving our members and contributing to community success,” said David Gill, president and CEO, Alcoa Tenn Federal Credit Union. “As SwitchThink’s 100th client, we’re confident their support will help us continue our steady growth and maintain a credit union environment where our members belong.”

New clients include:

- **Alcoa Tenn Federal Credit Union**
- **Allied Federal Credit Union**
- **Ashland Credit Union**
- **Credit Union of Ohio**
- **Cedar Point Federal Credit Union**
- **F&A Federal Credit Union**
- **Market USA Federal Credit Union**
- **Selfreliance Federal Credit Union**
- **Streator Onized Credit Union** (the seventh best-performing credit union in the United States according to S&P Market Intelligence)

“Corelation develops and enhances its market-leading KeyStone software while our team uses the latest industry best practices to deliver exceptional IT experiences with the right services, infrastructure and security,” said Scott Butler, SwitchThink’s CEO. “The combination supports credit unions’ focus on growth and service excellence, creating better outcomes for their communities and members — all without having to build and maintain their own infrastructure. Instead of a one solution for all, we meet credit unions where they are and add value everywhere we can.”
